

Wippells Autos Apprenticeship Program

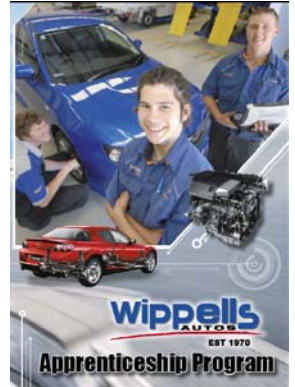

Kick start a career in the motor industry

Program at a glance

The Wippells Autos Apprenticeship Program has been designed to help school leavers in our region to become fully qualified motor vehicle technicians.

Mechanical apprenticeships are run over four years and involve:

- Full-time employment within the Wippells Autos Service Department;
- A formal qualification process through the Southern Queensland Institute of TAFE;
- On-the-job training alongside some of the most talented technicians in our region;
- The opportunity to work on an exciting mix of vehicles across our four new vehicle franchises;
- Specialised additional training on our products through off-site courses run by our manufacturers.

A career, not a job

At Wippells Autos, we pride ourselves on being able to develop our staff and keep them in the family for many years. The vast majority of our technicians started their career with us as an apprentice—some many years ago.

Our success stories:

- Two of our recent Service Managers started with us as apprentices;
- Two of the current part-owners of the business commenced their employment with us as mechanical apprentices;
- Other apprentices have gone on to fill other important roles after they completed their time—including foreman, service advisor, sales person and department manager.
- Many others are now highly qualified technicians and hold senior roles on our workshop floor.

There is no limit to where you can go in our industry—you just need to get a good start.

What vehicles do we work on?

We are very fortunate to have one of the best ranges of vehicle franchises in our region.

Successful applicants will have the opportunity to work on:

- Performance vehicles like the Subaru WRX; Mazda MPS, RX-8 and MX-5; and the GTI and R Series ranges from Volkswagen.
- Some of the big names like Mazda 3, Subaru Impreza, Volkswagen Golf and the Proton Jumbuck.
- Plus a host of models from our used car department.

If a career in the motor industry appeals to you, there is only one thing to do:

Contact us today and we will send you an application form.
